

Listening Age Formula

\$25.00

An excellent educational tool for use with children who have hearing loss. It provides an accurate determination of the time a child has received quality auditory input. This one-page calculation sheet guides the professional through consideration of the many factors that can affect the child's access to auditory experiences and learning. As oral language and speech development reflect auditory input, the Listening Age Formula provides a powerful tool to compare the child's development of oral communication skills with the time that audition has been accessible. Important prognostic information can be realized through this comparison. Field-tested for four years. Detailed rationale and instructions are included with each packet of forms.

Package of 50 forms, rationale and directions included.

The Cottage Early Childhood Curriculum Guide

- A comprehensive, spiraling curriculum of thematic units for use with preschool through kindergarten. Each unit of study provides classroom instructors with activities, vocabulary, and a listing of related children's literature.
- Provides an excellent framework for working with targeted language. The units build upon concepts each year ensuring that early childhood children develop a strong conceptual framework.
- A new direction for educators of the deaf!

Cottage Acquisition Scales for Listening, Language & Speech (CASLLS)

Eliminate separate forms for listening, language and speech objectives and promote the use of an integrated approach. Easily inform parents about progress. Teach using a developmental model and authentic assessment. Reduce planning time for therapy and classroom instruction; streamline long-term planning and IEP development. Promote continuity from pre-verbal to complex language skills.

Complete **\$99.00**

Manual Only **\$25.00**

What's covered?

Listening, Language, Speech and Cognition are included on the following forms:

- **Pre-Verbal** **\$20.00**
Designed for children with no words, it allows the professional to monitor the progress of preverbal behaviors.
- **Pre-Sentence** **\$20.00**
For children who have started speaking, it monitors the emergence of a full range of semantic intentions through 2-3 word combinations.
- **Simple Sentence** **\$20.00**
For children who are ready to develop complete simple sentences, it includes basic grammatical morphemes, the development of conversation, and the earliest examples of complex language.
- **Complex Sentence** **\$20.00**
For children ready to develop more sophisticated language abilities, it samples a broad variety of discourse skills, increasingly difficult question forms, elaborated noun phrases and subordination.
- **Sounds & Speech** **\$20.00**
A companion instrument that may be used at the same time as one of the other scales to monitor the development of sound awareness, phonetic listening discriminations, phonetic and phonologic speech.

Each selection is packed in sets of 20.

CASLLS Companion **\$35.00**

Just what you've been looking for! More examples, detailed explanations of grammatical forms and suggested activities. Therapy/classroom ideas for all of the objectives on the **Simple Sentence Level and Complex Sentence Level** of the **Cottage Acquisition Scales for Listening, Language and Speech (CASLLS)**.

- Explanations of grammatical terms
- Sample sentences
- Therapy ideas
- Suggested resources
- All objectives on the Simple and Complex Sentence Levels

Have you pondered the meaning of "early relative clauses" long enough? Need some help understanding aspects of English grammar as you address child language objectives? Now you have **CASLLS Companion** to make your lesson planning easier than ever before. Activities include links to children's literature. Numerous Internet web links improve your ability to locate the recommended materials.

The **CASLLS Companion** comes on CD-ROM, making all the files instantly searchable with Microsoft Office's "Find" command. No paging through numerous files. Just type a recognizable portion of the objective you are seeking. CD-ROM and your Internet provider allow instant access to publishers. Print the objective on card stock for sturdy access during instruction. Download the CD to your computer and add your own therapy ideas and resources inside the files for future searches.

System Requirements:
Windows or Mac OS, Microsoft Office '95 or later.

CASLLS Kit **\$115**

Designed to help you get started with the "Learning to Listen Sounds" of Auditory-Verbal Therapy. Then use these therapy materials creatively for many other purposes, including speech, language and auditory memory activities. Save hours of shopping time and money! If you tried to buy all these items yourself, you couldn't at this price! Costs you less than \$1.00 per item.

185 Objects Provided in the CASLLS Kit

- Balls with Emotion Faces
- Walking Shoes
- Tic-Tac-Toe Game
- Hamster
- Vehicles: cars, trains, helicopters, buses, ambulances, truck, planes, motorcycles, cars, trucks
- Figures: cowboy, Halloween characters, snowmen, reindeer, toy soldier, Christmas tree
- Farm Animals: mice, turkey, rabbits, cats, dogs, pigs, chickens, chicks, and ducks
- Zoo Animals: lions, bears (including three bears), elephants, monkeys, assorted others
- Fish, frogs, turtles, snakes
- Bugs, butterflies, bees, spider
- Birds

Includes pull-back rollers, wind-ups, whistles, finger puppets, hoppers, bubble eyes, wiggle eyes, flippers, noise makers, pop-ups, bendables, spinners, and collapsibles.

The **CASLLS Kit** includes a set of labels to apply to your own containers. Best of all, the CASLLS Kit includes an introductory set of teaching ideas for all levels of the **CASLLS** to get you started with using the materials for the teaching of listening, language and speech.

Small parts. Not intended for children under 3 years.

NOT AVAILABLE AT THIS TIME

Speech That Works **\$129**

Speech That Works makes speech development more exciting for young children with hearing losses while still providing short, repeated practice sessions with a minimum of wasted time. **Speech That Works** also facilitates the acquisition of speech skills in children with apraxia, dysarthria and other motor speech difficulties.

Speech That Works promotes communication between caregivers — parents, teachers, speech-language pathologists, auditory-verbal therapists, oral motor therapists. Each adult quickly sees the child's speech targets and how well the child has done with others. **Speech That Works** also is a means for documenting services and planning lessons. With children who are just beginning a formal approach, the program suggests activities using real toys.

What's included?

Designed to follow Dr. Daniel Ling's speech program, **Speech That Works** includes everything you can't find anywhere else:

- suprasegmental objectives for duration, loudness, and pitch
- phonetic level exercises for vowels, single consonants, and clusters
- vowels from isolation to alternation, and words and phrases
- clusters in order of motor difficulty
- phonologic objectives focused on morphological development rather than the typical pictures of nouns

Available on CD-Rom for Macintosh and PC (Windows 95 or later). Call for Demo Disk or site license information.

Comfort Level Checklist for Auditory-Verbal Families **\$17.50**

Empower your clients (parents/primary caregivers) in their educational journey concerning the impact of hearing loss on their family. This recently developed checklist provides a framework for encouraging and guiding parents/primary caregivers to understand their role in the development of listening, language, and speech for their child with hearing loss.

With guidance from a professional skilled in auditory-based practices, parents/primary caregivers choose topics to learn about or select strategies to facilitate listening, language, and speech development. Parents then rate themselves on their level of comfort with the information and strategies they acquired.

Five areas of competency are included in this booklet along with the rationale and suggestions for use with families:

- Listening Information - 14 topics
- Listening Strategies - 19 items
- Language Information- 11 topics
- Language Strategies- 21 items
- Parent Advocacy Information and Strategies- 11 topics/items

Pack of 10.

Available in Spanish.
